

# Company Profile

## Our Profile

Dr. Till Bay and Dr. Bernd Schoeller founded Comerge to offer high-quality software. Today, twenty-three computer science engineers, some of them holding a PhD, work for Comerge. We are growing constantly. This year, we left Technopark Zürich and relocated to more spacious headquarters next to Sihlcity. Several employees lecture at universities and we are well connected to ETH and the University of Zurich through our interdisciplinary research projects.

## Core Competence

Comerge's mission is to solve our clients' problems with adequate, professional software.

High identification with the problem and a proven development processes allow the production of better software. As a reliable partner, Comerge knows the practical constraints and reacts agile and timely.

Comerge exclusively employs computer science graduates from renowned universities all around the world. Thanks to our highly skilled employees, Comerge, is capable to realize robust software-solutions for highly complex problem domains.

## Products, Technologies and Platforms

Comerge designs and develops electronic trading systems and solutions for the transport and storage of market-data. Our solutions fit our clients business processes and execute specific requirements promptly and reliably.

High scalability, robust implementations and focus on data and protocols characterize our platforms.

Within some of our projects, Comerge implemented systems with over fifty years of data-integrity or with hard real-time requirements.

Comerge's software is scalable to our clients size and needs, actually serving several thousand users with billion-dollars assets under management.

## Our Clients

Our clients are locally and globally operating firms with highest demands in quality and reliability.

- Credit Suisse
- AXA Investment Managers
- ETH Zürich
- Universität Zürich
- Oriact GmbH
- MacXReD Ltd.

## Conclusion

With Comerge, you work with a experienced and reliable partner which has expert knowledge developing customized electronic trading solutions and required broker/market certification. These solutions enable you to automate your workflows and focus more time on the development of your trading strategies.
