

Comerge stands for a young team of highly-qualified IT specialists whose distinct focus lies on the needs of the customer. Our goal is to jointly realize great software solutions for our customers. To reach this goal, we rely on an agile software process and a strong team that helps shape Comerge.

To support our team in Zurich we are looking to hire immediately or by arrangement a motivated and flexible

**Software engineer (m/f) 100%**

with a degree from ETH/FH/University in Computer Science, Information Technology and Electrical Engineering, Mathematics or Physics, possibly with working experience.

You have a love for software development, you are technologically flexible and you like working in a solution-oriented environment based on an agile development process. You have good communication skills, are a team player and dedicated to your work.

As an engineer at Comerge, you independently realize interesting projects in the area of the Web 2.0, client-server applications and data visualization from the design until the deployment at the customer sites in Switzerland or abroad. We develop our software with Java, C # and Objective C for servers, work stations, and mobile devices.

At Comerge, we strive to reach a balance between independent work and collaboration with the team resulting in a pleasant and productive working environment. Respect, self-responsibility, and collegiality are at the center of our company ethics.

Are you looking for a new and interesting challenge in a modern working environment with a motivated and dynamic team near Zurich Sihlcity?

Send us your detailed application and your documents via e-mail or by post.
