

**We are Comerge, a young team of highly-qualified software developers, interaction designers and IT project managers. Our goal is to jointly realize great software solutions with a distinct focus on the needs of the customer. To reach this goal, we rely on an agile software process and a strong team that helps shaping Comerge.**

**To support our team in Zurich, we are looking to hire immediately or by arrangement a motivated and flexible**

# IT Project Manager (m/w) 80-100%

with a degree from ETH/FH/University in Computer Science, Information Technology and Electrical Engineering, Mathematics, or Physics with working experience as a project manager in IT projects.

You have a love for leading projects, are technology-savvy, and you like working in a solution-oriented environment based on an agile development process. You have excellent organizational and communication skills, are a team player, and dedicated to your work.

As a project manager at Comerge you realize meaningful software projects in the area of medtech, mobility and logistics from the design until the deployment at the customer sites in Switzerland or abroad.

At Comerge, we strive to reach a balance between independent work and collaboration with the team resulting in a pleasant and productive working environment. Respect, self-responsibility, and collegiality are at the center of our company ethics.

Are you looking for a new and interesting challenge in a modern working environment with a motivated and dynamic team near Zurich Sihlcity? Send us your detailed application and documents today by email or post.
