

We are Comerge, a young team of highly-qualified software developers and interaction designers. Our goal is to jointly realise great software solutions with a distinct focus on the needs of the customer. To reach this goal, we rely on an agile software process and a strong team that helps shape Comerge.

To support our team in Zurich, we are looking to hire immediately or by arrangement a motivated and flexible

Software Engineer (m/w) 100%

with a degree from ETH/FH/University in Computer Science, Information Technology and Electrical Engineering, Mathematics, or Physics, possibly with working experience.

You have a love for software development, you are technologically exible, and you like working in a solution-oriented environment based on an agile development process. You have good communication skills, are a team player, and dedicated to your work.

As an engineer at Comerge, you independently realize interesting projects in the area of mobility, logistics and robotics from the design until the deployment at the customer sites in Switzerland or abroad. We develop our software with Java, Javascript and Swift for web-, native- and mobile-apps.

At Comerge, we strive to reach a balance between independent work and collaboration with the team resulting in a pleasant and productive working environment. Respect, self-responsibility, and collegiality are at the center of our company ethics.

Are you looking for a new and interesting challenge in a modern working environment with a motivated and dynamic team near Zurich Sihcity? Send us your detailed application and documents today by email or post.
